The developer and general contractor of the investment is the company Dekpol S.A. listed on the Warsaw Stock Exchange. Completion of the construction was planned as at January 2017.

The Client purchasing of the real estate in the framework of Grano Residence buys in prospect a separate premises with its own, separated Mortgage Register maintained for the premises. A high level of safety of the purchase is guaranteed first of all by the payment system 20/80, which means that the Client pays 80% of value of the purchased premises only after construction of the facility. The applied settlement system results in that the construction is not being executed from the Client's funds. Additionally, the process of the construction itself and compliance with the construction works timetable is monitored by an external Project Monitor (appointed by the institution financing the construction undertaking) who in quarters reports on the course of the works.

The Clients, while purchasing of the premises, conclude a Preliminary Sale Agreement in the form of a Notarial Deed (with entering of the claim to Chapter III of the Mortgage Register).
